About Daré Bioscience

We are a clinical-stage biopharmaceutical company committed to the acceleration of innovative products for women's health. We are driven by a mission to identify, acquire and develop a diverse portfolio of differentiated therapies that expand treatment options, improve outcomes and facilitate convenience for women, primarily in the areas of contraception, fertility, and sexual and vaginal health. Our business strategy is to in-license or otherwise acquire the rights to differentiated product candidates in our areas of focus, some of which have existing clinical proof-of-concept data, to take those candidates through mid- to late-stage clinical development, and to establish and leverage strategic partnerships to achieve commercialization.

Since July 2017, we have assembled a portfolio of clinical-stage and pre-clinical-stage candidates. While we will continue to assess opportunities to expand our portfolio, our current focus is on advancing our existing product candidates through mid- and late stages of clinical development or approval. Our portfolio includes three product candidates in advanced clinical development:

- **DARE-BV1**, a novel thermosetting bioadhesive hydrogel formulated with clindamycin phosphate 2% to be administered in a single vaginally delivered application, as a first line treatment for bacterial vaginosis;
- **Ovaprene®**, a hormone-free, monthly vaginal contraceptive; and
- **Sildenafil Cream, 3.6%**, a proprietary cream formulation of sildenafil for topical administration to the vulva and vagina for treatment of female sexual arousal disorder.

Our portfolio also includes three product candidates in Phase 1 clinical development or that we believe are Phase 1-ready:

- **DARE-HRT1**, a combination bio-identical estradiol and progesterone intravaginal ring for the treatment of menopausal symptoms, including vasomotor symptoms, as part of a hormone replacement therapy following menopause;
- **DARE-FRT1**, an intravaginal ring containing bio-identical progesterone for the prevention of preterm birth and broader luteal phase support as part of an in vitro fertilization treatment plan; and
- **DARE-VVA1**, a vaginally delivered formulation of tamoxifen to treat vulvar vaginal atrophy in patients with hormone-receptor positive breast cancer.

In addition, our portfolio includes these pre-clinical stage product candidates:

- **DARE-LARC1**, a combination product designed to provide long-acting, reversible contraception comprising an implantable, user-controlled wireless drug delivery system and levonorgestrel;
- **ORB-204 and ORB-214**, injectable formulations of etonogestrel designed to provide contraception over 6-month and 12-month periods, respectively; and

- **DARE-RH1**, a novel approach to non-hormonal contraception for both men and women by targeting the CatSper ion channel.

Our primary operations have consisted of, and are expected to continue to consist of, product research and development and advancing our portfolio of product candidates through clinical development and regulatory approval. To date, we have not obtained any regulatory approvals for any of our product candidates, commercialized any of our product candidates or generated any product revenue. The majority of our development expenses incurred during the fourth quarter of 2020 and that we expect to incur in 2021 will support the advancement of DARE-BV1, Ovaprene and Sildenafil Cream, 3.6%.

The effect of the COVID-19 pandemic and efforts to reduce the spread of COVID-19 remain a rapidly evolving and uncertain risk to our business, operating results, financial condition and stock price. In November 2020, the U.S. began to experience a substantial surge in cases and hospitalizations and intensive care unit capacity became strained. States and counties across the country imposed or re-imposed stay-at-home orders and shutdowns of non-essential businesses in efforts to reduce spread of the disease. In December 2020, the U.S. Food and Drug Administration (FDA) issued the first emergency use authorization for a vaccine for the prevention of COVID-19. However, experts have cautioned it is unlikely that an authorized vaccine will be available to a significant proportion of people in the U.S. before late spring or early summer 2021, and the timeline for the pandemic and its associated restrictions to end remain uncertain. Given the high level of uncertainty regarding the duration and impact of the pandemic on the U.S. and global economies, workplace environments and capital markets, we are unable to assess the full extent of the effects of the pandemic on our business. These effects could have a material adverse impact on our business, operating results and financial condition, including, without limitation, by adversely impacting our ability to raise capital when needed or on terms favorable or acceptable to us and increasing the anticipated aggregate costs and timelines for the development and marketing approval of our product candidates. For further discussion of risks and uncertainties related to the COVID-19 pandemic, see the risk factor titled, *The COVID-19 pandemic and efforts to reduce the spread of COVID-19 could negatively impact our business, including by increasing the cost and timelines for our clinical development programs*, in Part II, Item 1A. Risk Factors of the Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2020 that is incorporated by reference into this prospectus, as well as any risk factor similarly subcaptioned in any document subsequently incorporated by reference into this prospectus or any amendment or supplement to this prospectus.

Recent Development

On December 7, 2020, we announced positive topline results from our DARE-BVFREE Phase 3 clinical trial of DARE-BV1 for the treatment of bacterial vaginosis. As further discussed below, the study met its primary endpoint, demonstrating that a single administration of DARE-BV1 was superior to placebo as a primary therapeutic intervention for women diagnosed with bacterial vaginosis.

DARE-BVFREE was a randomized, multicenter, double-blind, placebo-controlled study that randomized 307 women diagnosed with bacterial vaginosis at 32 centers across the United States in a 2:1 ratio to receive a single vaginal dose of DARE-BV1 (clindamycin phosphate vaginal gel, 2%) (N=204) or a single vaginal dose of placebo gel (HEC Universal Placebo Gel) (N=103) to be applied intravaginally within one day of randomization. Subjects were evaluated during three clinic visits: Day 1 (screening and randomization visit), Day 7-14 (assessment visit that occurred 7 to 14 days after study drug administration), and Day 21-30 (test-of-cure visit that occurred 21 to 30 days after study drug administration). The primary endpoint for the study was clinical cure of bacterial vaginosis determined at the Day 21-30 visit in the modified intent-to-treat (mITT) study population (N=180). In accordance with FDA guidance, the mITT population excludes subjects from the intent-to-treat (ITT) population (N=307) who subsequently demonstrated a positive test result for other concomitant vaginal or cervical infections at baseline. Clinical cure was defined as resolution of the specific clinical signs that comprise the Amsel criteria; specifically, resolution of abnormal vaginal discharge associated with bacterial vaginosis, clue cells less than 20% of total epithelial cells on microscopy, and a negative 10% KOH "whiff" test. The total study duration was approximately one month for each individual subject.

DARE-BV1 demonstrated statistically significant efficacy in the primary endpoint and in all five pre-specified secondary efficacy assessments. The clinical cure endpoint results are shown in the following table:

Summary of Clinical Cure Results (mITT Population), p-value < 0.001		
	DARE-BV1 (N = 121)	Placebo (N = 59)
Clinical Cure at Day 7-14 visit	76.0%	23.7%
Clinical Cure at Day 21-30 visit (primary endpoint)	70.2%	35.6%

The clinical cure rate at the Day 21-30 visit for the ITT population was similar to that for the mITT population (70.1% for the DARE-BV1 group (N=204) and 36.9% for the placebo group (N=103), p-value < 0.001).

DARE-BV1 was well-tolerated in the study. There were no early discontinuations due to adverse events (AEs), and the only serious AE occurred in a woman in the placebo group. In the DARE-BV1 group, 15.3% of patients reported AEs that were considered to be possibly, probably or definitely related to study treatment compared to 9.7% of patients in the placebo group. Only two AEs were reported by more than 2% of patients in the DARE-BV1 arm and at a rate higher than in patients in the placebo arm – vulvovaginal candidiasis, commonly called a vaginal yeast infection (17.2% in the DARE-BV1 group and 3.9% in the placebo group), and vulvovaginal pruritus, commonly referred to as vaginal itching (4.4% in the DARE-BV1 group and 1.9% in the placebo group). Over half of the vaginal yeast infections reported in the DARE-BV1 group and exactly half of those reported in the placebo group occurred in patients who exhibited a positive yeast culture prior to dosing.

Based on the topline results from the DARE-BVFREE study, we expect to have a pre-NDA meeting with the FDA in early 2021 and to submit a new drug application (NDA) to the FDA during the first half of 2021. DARE-BV1 received both Fast Track and Qualified Infectious Disease Product designations from the FDA for the treatment of bacterial vaginosis. Given these designations, the NDA could be eligible for priority review, which, if granted, could allow for a FDA review period of six months. Assuming a six-month review period and an approval from the FDA in 2021, we would expect a commercial launch of DARE-BV1 in the United States in early 2022.

Summary of Risk Factors

Investing in our common stock involves a high degree of risk. Before deciding whether to purchase our common stock, you should carefully consider the risks and uncertainties described in the section captioned “Risk Factors” in this prospectus, and under similar headings in the documents incorporated by reference into this prospectus, as well as in any amendments or supplements to this prospectus. The occurrence of any of these risk factors could have a material adverse effect on our business, financial condition, results of operations and growth prospects. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment in our common stock. These risk factors include, but are not limited to, the following:

- We will need to raise additional capital to continue our operations and remain a going concern, and our ability to do so may be limited and more expensive due to our low public float, low market capitalization, limited operating history and lack of revenue, and/or applicable laws and regulations.
- We have a limited operating history, have incurred significant losses since our inception and expect to continue to incur losses for the foreseeable future, which, together with our limited financial resources, makes it difficult to assess our prospects.
- The COVID-19 pandemic and efforts to reduce the spread of COVID-19 could negatively impact our business, including by increasing the cost and timelines for our clinical development programs.

- We may not receive any additional payments under our license agreement with Bayer, and Bayer may terminate the agreement at any time without cause upon limited prior notice.
- Due in part to our limited financial resources, we may fail to select or capitalize on the most scientifically, clinically or commercially promising or profitable indications or therapeutic areas for our product candidates, we may be unable to pursue and complete the clinical trials we would like to pursue and complete, and we may be unable to commence or complete clinical trials in accordance with our current timeline expectations.
- We have a relatively small number of employees and if we fail to attract and retain key personnel, we may not successfully complete development of, obtain regulatory approval for or commercialize our product candidates, or otherwise implement our business plan.
- Cyber-attacks, security breaches, loss of data and other disruptions to our information technology systems or those of our third-party service providers could compromise sensitive information related to our business, delay or prevent us from accessing critical information or expose us to liability, any of which could adversely affect our business and our reputation.
- We depend heavily on the success of our clinical-stage product candidates, DARE-BV1, Ovaprene and Sildenafil Cream, 3.6%. Clinical development is a lengthy and expensive process with an inherently uncertain outcome. Failure to successfully develop and obtain regulatory approval to market and sell any of these product candidates on our anticipated timelines, or at all, could have a materially adverse effect on our business, operating results and financial condition.
- We depend highly on our license agreements for our clinical-stage product candidates and the loss or impairment of our rights under any license could have a materially adverse effect on our business prospects, operations and viability.
- We rely on, and intend to continue to rely on, third parties for the execution of significant aspects of our development programs, including the conduct of our clinical and non-clinical studies and the supply and manufacture of our product candidates. Failure of these third parties, including multiple single source suppliers and manufacturers, to successfully carry out their contractual duties, comply with regulatory requirements and applicable law, or meet expected deadlines may cause significant delays in our product development timelines and/or failure of our programs.
- Interim, topline and preliminary data from our clinical trials that we announce or publish from time to time may change as more patient data become available and are subject to audit and verification procedures that could result in material changes in the final data, and others, including regulatory authorities, may not agree with our interpretation of study data.
- Our business depends on obtaining the approval of regulatory authorities, and in particular, FDA approval, for our product candidates in a timely manner, and the requirements for obtaining approval for our product candidates may change over time, requiring more financial resources and development time than we currently anticipate.
- Our business strategy is to establish and leverage strategic partnerships to achieve commercialization of our product candidates, if approved. We have no internal sales, marketing or distribution capabilities. Under any such collaborations, we may not have control over several key elements relating to the development and commercialization of our product candidates, and any failure by such third parties to adequately perform their obligations under our agreements could negatively impact our business, operating results and financial condition.
- The product candidates we are developing or may develop are likely to face significant competition. If we receive marketing approval for any of our product candidates, their ability to compete and potential to generate revenue will be impacted by the efficacy and safety outcomes of our clinical trials, the label claims that the FDA or other regulatory authorities approve for the product, and the degree of acceptance among the medical community and consumers and their preference of our products over available alternative products.
- Even if we obtain regulatory approval in the United States or elsewhere to market any of our products, the reimbursement environment at the time of approval may hurt our financial

prospects. If the out-of-pocket costs for our products are deemed by women to be high, a commercial market may never develop.

- Our failure to adequately protect or enforce our and our licensors' intellectual property rights could materially harm our proprietary position in the marketplace or prevent or impede the commercialization of our current and potential future products.
- Lack of patent protection for the active ingredients in certain of our product candidates, including DARE-BV1 and Sildenafil Cream, 3.6%, may limit the commercial opportunity for those products if competitors are able to develop and commercialize safe and effective alternative formulations or methods of delivery of the active ingredients.
- The price of our common stock may be volatile and could subject us to securities litigation, including class-action lawsuits.
- There is no assurance that we will continue satisfying the listing requirements of the Nasdaq Capital Market, and such failure could result in the suspension or delisting of our common stock, which could, among other things, substantially impair our ability to raise additional capital and have an adverse effect on the market price of, and the efficiency of the trading market for, our common stock.
- The sale of our common stock to Lincoln Park may cause dilution to our other stockholders and the subsequent sale of the shares of common stock acquired by Lincoln Park, or the perception that such sales may occur, could cause the price of our common stock to fall.
- There may be future sales or other dilution of our equity, including sales and issuances of our common stock under our ATM sales agreement and upon exercise of stock options and warrants, which may adversely affect the market price of our common stock, even if our business is doing well.

- 1,908,643 shares of common stock issuable upon exercise of warrants outstanding as of December 18, 2020, with a weighted-average exercise price of \$1.41 per share.

Purchase Agreement with Lincoln Park

On April 22, 2020, we entered into a purchase agreement with Lincoln Park, which we refer to in this prospectus as the Purchase Agreement, pursuant to which Lincoln Park agreed to purchase from us up to an aggregate of \$15.0 million of our common stock (subject to certain limitations) from time to time over the term of the Purchase Agreement. Through the date of this prospectus, Lincoln Park has purchased an aggregate of approximately \$7.4 million of our common stock under the Purchase Agreement. Also on April 22, 2020, we entered into a registration rights agreement with Lincoln Park, which we refer to in this prospectus as the Registration Rights Agreement, pursuant to which we have filed with the SEC the registration statement that includes this prospectus to register for resale under the Securities Act, the shares of common stock that have been or may be issued to Lincoln Park under the Purchase Agreement.

We did not have the right to commence any sales of our common stock to Lincoln Park under the Purchase Agreement until the conditions set forth in the Purchase Agreement, all of which were outside of Lincoln Park's control, were satisfied, including that the SEC declared effective a registration statement covering the resale by Lincoln Park of the shares that have been or may be issued pursuant to the Purchase Agreement, which time we refer to in this prospectus as the Commencement. The Commencement occurred on May 19, 2020. On or after the date of the Commencement, we had the right, which we exercised, to direct Lincoln Park to purchase \$500,000 in shares of our common stock, which we refer to in this prospectus as the "Commencement Purchase." Thereafter, from time to time, at our sole discretion, we may direct Lincoln Park to purchase shares of our common stock in amounts up to 200,000 shares on any single business day, which amounts may be increased to up to 300,000 shares depending on the market price of our common stock at the time we initiate the sale and subject to a maximum commitment by Lincoln Park of \$1.0 million per single purchase, which we refer to in this prospectus as "Regular Purchases," plus other "accelerated amounts" and/or "additional accelerated amounts" under certain circumstances. We will control the timing and amount of any sales of our common stock to Lincoln Park under the Purchase Agreement. The purchase price of the shares that were sold to Lincoln Park in the Commencement Purchase and that have been sold and may be sold in any Regular Purchase was and will be the lower of (i) the lowest sale price of our common stock on the business day on which we initiate the purchase and (ii) the average of the three lowest closing sale prices of our common stock during the 10 consecutive business day period immediately preceding the business day on which we initiate the purchase. The purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the business days used to compute such price. We may terminate the Purchase Agreement at any time after the date of Commencement, at no penalty or cost, other than the Commitment Shares (as defined below). There are no restrictions on future financings, rights of first refusal, participation rights, penalties or liquidated damages in the Purchase Agreement or Registration Rights Agreement, other than a prohibition on our issuing, or entering into any agreement to effect the issuance of, shares of our common stock or common stock equivalents involving a transaction that is defined in the Purchase Agreement as "Variable Rate Transaction." Lincoln Park may not assign or transfer its rights and obligations under the Purchase Agreement.

On April 22, 2020, in consideration for its commitment to purchase shares of our common stock under the Purchase Agreement, we issued 285,714 shares of our common stock to Lincoln Park, which we refer to in this prospectus as the "Commitment Shares."

As of the date of this prospectus, there were 41,064,127 shares of our common stock outstanding, of which 39,401,580 shares were held by non-affiliates. The 41,064,127 shares of our common stock outstanding as of the date of this prospectus includes 6,967,874 shares issued and/or sold to Lincoln Park under the Purchase Agreement. If all of the 7,053,126 shares offered by Lincoln Park under this prospectus were issued and outstanding, such shares would represent approximately 14.7% of the total number of shares of our common stock outstanding and approximately 15.2% of the total number of outstanding shares held by non-affiliates, in each case as of the date of this prospectus. The Purchase Agreement provides that we may sell up to \$15.0 million of our common stock to Lincoln Park. Through the date of this prospectus, we have sold approximately \$7.4 million of our common stock to Lincoln Park under the Purchase Agreement. Depending on the price per share at which we sell shares to Lincoln Park under the Purchase Agreement, we may need to sell more shares to Lincoln Park than are offered under this prospectus to receive aggregate gross proceeds equal to the approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement, in which case we must first register for resale under the Securities Act additional shares of our common stock. The number of shares ultimately offered for resale by Lincoln Park will depend upon the number of shares we elect to sell to Lincoln Park under the Purchase Agreement. Sales of our common stock to Lincoln Park by us under the Purchase Agreement could result in substantial dilution to our stockholders.

Under applicable rules of The Nasdaq Stock Market, in no event may we issue or sell to Lincoln Park under the Purchase Agreement more than 19.99% of the shares of our common stock outstanding immediately prior to the execution of the Purchase Agreement (which is 4,941,089 shares based on 24,705,453 shares outstanding immediately prior to the execution of the Purchase Agreement), which limitation we refer to in this prospectus as the "Exchange Cap," unless (i) we obtain stockholder approval to issue shares of common stock in excess of the Exchange Cap or (ii) the average price per share of all applicable sales of our common stock to Lincoln Park under the Purchase Agreement equals or exceeds \$1.0117 (which represents the closing sale price per share of our common stock on April 21, 2020, plus an incremental amount), such that issuances and sales of our common stock to Lincoln Park under the Purchase Agreement would not be subject to the Exchange Cap under applicable Nasdaq rules. The average price per share of the sales we made to Lincoln Park under the Purchase Agreement through the date of this prospectus was in excess of \$1.0117. In any event, the Purchase Agreement specifically provides that we may not issue or sell any shares of our common stock under the Purchase Agreement if such issuance or sale would breach any applicable Nasdaq rules.

The Purchase Agreement also prohibits us from directing Lincoln Park to purchase any shares of common stock if those shares, when aggregated with all other shares of our common stock then beneficially owned by Lincoln Park and its affiliates, would result in Lincoln Park and its affiliates having beneficial ownership, at any single point in time, of more than 9.99% of the then total outstanding shares of our common stock, as calculated pursuant to Section 13(d) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and Rule 13d-3 thereunder, which limitation we refer to as the Beneficial Ownership Cap.

The sale of shares of our common stock to Lincoln Park will not affect the rights or privileges of our other stockholders, except that the economic and voting interests of each of our other stockholders will be diluted as a result of any such sale. Although the number of shares of common stock that our other stockholders own will not decrease, the shares owned by our other stockholders will represent a smaller percentage of our total outstanding shares after any such sale to Lincoln Park.

RISK FACTORS

Investing in our securities involves significant risk. In addition to the other information included or incorporated by reference in this prospectus, including the risks, uncertainties and assumptions discussed under the heading "Risk Factors" included in our most recent annual report on Form 10-K, as revised or supplemented by our subsequent quarterly reports on Form 10-Q or our current reports on Form 8-K that we have filed with the SEC, all of which are incorporated herein by reference (other than current reports on Form 8-K, or portions thereof, furnished under Items 2.02 or 7.01 of Form 8-K), you should consider the risks described below before making an investment decision with respect to the shares of our common stock in this offering. We expect to update these risk factors and our other risk factors from time to time in periodic and current reports we file with the SEC in the future. Such updated risk factors will be incorporated by reference in this prospectus. Please refer to our subsequently filed reports for additional information relating to the risks associated with investing in our common stock. The risks and uncertainties described in our risk factors are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. The occurrence of any of these risks might cause you to lose all or part of your investment.

Risks Related to this Offering

The sale of our common stock to Lincoln Park may cause dilution to our other stockholders and the subsequent sale of the shares of common stock acquired by Lincoln Park, or the perception that such sales may occur, could cause the price of our common stock to fall.

Lincoln Park committed to purchase up to \$15.0 million of our common stock under the Purchase Agreement. Through the date of this prospectus, we have sold approximately \$7.4 million of our common stock to Lincoln Park under the Purchase Agreement, leaving an approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement. The purchase price for the shares that we may sell to Lincoln Park under the Purchase Agreement remains subject to the pricing formula in the Purchase Agreement and will vary based on the price of our common stock at the time we initiate the sale. Depending on market liquidity at the time, sales of such shares may cause the trading price of our common stock to fall.

We generally have the right to control the timing and amount of any future sales of our shares to Lincoln Park under the Purchase Agreement. Sales of shares of our common stock to Lincoln Park under the Purchase Agreement, if any, will depend upon market conditions and other factors to be determined by us. We may ultimately decide to sell to Lincoln Park all, some or none of the shares of our common stock that may be available for us to sell pursuant to the Purchase Agreement. If and when we do sell shares to Lincoln Park, after Lincoln Park has acquired the shares, Lincoln Park may resell all, some or none of those shares at any time or from time to time in its discretion. Therefore, sales to Lincoln Park by us could result in substantial dilution to the interests of other holders of our common stock. Additionally, the sale of a substantial number of shares of our common stock to Lincoln Park, or the anticipation of such sales, could make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect sales.

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock, even if our business is doing well.

We are generally not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. To raise additional capital, we may in the future sell additional shares of our common stock or other securities convertible into or exchangeable for our common stock at prices that are lower than the prices paid by existing stockholders, and investors purchasing shares or other securities in the future could have rights superior to existing stockholders, which could result in substantial dilution to the interests of existing stockholders. The market price of our common stock could decline as a result of sales of common stock

or securities that are convertible into or exchangeable for, or that represent the right to receive, common stock or the perception that such sales could occur.

In January 2018, we entered into a common stock sales agreement with H.C. Wainwright & Co., LLC, in connection with an “at the market” offering, under which, from time to time, we may offer and sell shares of our common stock. We call that sales agreement our “ATM sales agreement.” To the extent we sell shares of our common stock under the ATM sales agreement, such sales may result in substantial dilution to our existing stockholders, and such sales, or the anticipation of such sales, may cause the trading price of our common stock to decline.

As of December 18, 2020, we had outstanding options to purchase up to approximately 2.8 million shares of our common stock and outstanding warrants to purchase up to approximately 1.9 million shares of our common stock. The exercise of a significant portion of our outstanding options and/or warrants may result in significant dilution to our stockholders. In addition, assuming the registration statements under which the shares issuable upon exercise of such options and warrants remain effective, after issuance by us the underlying shares can be freely sold in the public market, except to the extent any such shares are held by an affiliate of ours, in which case such shares will become eligible for sale in the public market as permitted by Rule 144 under the Securities Act or another applicable exemption from registration. The exercise of a significant portion of our outstanding options and/or warrants may result in significant dilution to our stockholders.

In addition, under our Agreement and Plan of Merger with Microchips Biotech, Inc., we agreed to pay contingent consideration to the former stockholders of Microchips upon achievement of specified milestones, up to \$2.3 million of which we may elect to pay in shares of our common stock, subject to subject to approval of our stockholders to the extent necessary to comply with Nasdaq Listing Rule 5635. A decision by us to pay contingent consideration that becomes payable to the former stockholders of Microchips in shares of our common stock may result in dilution to our existing stockholders.

Outstanding warrants to purchase up to approximately 1.9 million shares of our common stock contain anti-dilution provisions that may be triggered by future sales of our common stock, including to Lincoln Park under the Purchase Agreement.

Outstanding warrants to purchase up to approximately 1.9 million shares of our common stock include price-based anti-dilution provisions. As of December 18, 2020, the exercise price of those warrants was \$0.96 per share. Under the terms of those warrants, subject to certain limited exceptions, their exercise price will be reduced each time we issue or sell any securities, including to Lincoln Park under the Purchase Agreement and under the ATM sales agreement, for a consideration per share less than a price equal to the exercise price of those warrants in effect immediately prior to such issuance or sale. If we issue shares of our common stock for cash, the consideration received therefor will be deemed to be the net amount of consideration we received therefor. Investors in this offering and our other stockholders may be diluted to the extent those warrants are exercised, and the exercise of those warrants or the sale of a significant number of shares issued upon such exercise in the public markets, or the perception that such exercise and/or sales could occur, could adversely affect the price of our common stock.

We will require additional financing to sustain our operations and without it we may not be able to execute our current operating plan or continue operations.

We incurred a loss of approximately \$19.0 million for the nine months ended September 30, 2020. As of September 30, 2020, we had an accumulated deficit of approximately \$63.0 million and cash and cash equivalents of approximately \$5.4 million. We also had negative cash flow from operations of approximately \$16.0 million during the nine months ended September 30, 2020. We have a history of losses from operations, we expect negative cash flows from our operations to continue for the foreseeable future, and we expect that our net losses will continue for at least the next several years as we develop our existing product candidates and seek to acquire, license or develop additional product candidates. Based on our current operating plan estimates and cash resources, not taking into account any future sales of our shares to Lincoln Park under the Purchase Agreement, we do not believe our

existing resources will be sufficient to satisfy our working capital needs and other liquidity requirements over at least the next 12 months. For the foreseeable future, our ability to continue our operations will depend upon our ability to obtain additional capital. These circumstances raise substantial doubt about our ability to continue as a going concern. The Report of Independent Registered Public Accounting Firm included in our annual report on Form 10-K for the year ended December 31, 2019 includes an explanatory statement that our recurring losses from operations, negative cash flow from operations and dependence on additional financing to fund operations raise substantial doubt about our ability to continue as a going concern. We will need to raise substantial additional capital to continue to fund our operations and to successfully execute our current operating plan, including the development of our current product candidates.

We may direct Lincoln Park to purchase up to \$15.0 million worth of shares of our common stock under the Purchase Agreement over a 36-month period that began on May 19, 2020, generally in amounts up to 200,000 shares of our common stock on any business day, which amount may be increased to up to 300,000 shares of our common stock depending on the market price of our common stock at the time we initiate the sale and subject to a maximum limit of \$1.0 million in any single Regular Purchase. Through the date of this prospectus, we have directed Lincoln Park to purchase approximately \$7.4 million worth of shares of our common stock under the Purchase Agreement, leaving an approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement.

The extent we rely on Lincoln Park as a source of funding will depend on a number of factors including, the market price of our common stock over the remaining portion of the 36-month period during which we may sell shares to Lincoln Park under the Purchase Agreement described above, and the extent to which we are able to secure funding from other sources. If obtaining sufficient funding from Lincoln Park were to prove unavailable or prohibitively dilutive, we will need to secure another source of funding in order to satisfy our working capital needs. Even if we were to receive all of the approximately \$7.6 million in gross proceeds remaining under the Purchase Agreement, we will still need additional capital to fully implement our business, operating and development plans. Should the financing we require to sustain our working capital needs be unavailable or prohibitively expensive when we require it, we will not be able to continue development of our product candidates or we will be required to delay, scale back or eliminate some or all of our development programs or cease operations, and the consequences could be a material adverse effect on our business, operating results, financial condition and prospects.

Our management will have broad discretion over the use of the net proceeds from sales of shares of our common stock to Lincoln Park, you may not agree with how we use the proceeds and the proceeds may not be invested successfully.

Our management will have broad discretion as to the use of the net proceeds from our sale of shares of common stock to Lincoln Park under the Purchase Agreement, and we could use them for purposes other than those contemplated at the time of commencement of this offering. Accordingly, you will be relying on the judgment of our management with regard to the use of those net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that, pending their use, we may invest those net proceeds in a way that does not yield a favorable, or any, return for us or that loses value. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flows.

OUR AGREEMENTS WITH LINCOLN PARK

Overview

On April 22, 2020, we entered into the Purchase Agreement and the Registration Rights Agreement with Lincoln Park. Pursuant to the terms of the Purchase Agreement, Lincoln Park agreed to purchase from us up to \$15.0 million of our common stock (subject to certain limitations) from time to time during the term of the Purchase Agreement. Pursuant to the terms of the Registration Rights Agreement, we filed with the SEC the registration statement that includes this prospectus to register for resale under the Securities Act shares that have been or may be issued to Lincoln Park under the Purchase Agreement.

We did not have the right to commence any sales of our common stock to Lincoln Park under the Purchase Agreement until the Commencement occurred, which is the time at which all of the conditions set forth in the Purchase Agreement, all of which were outside of Lincoln Park's control, were satisfied, including that the SEC declared effective a registration statement covering the resale by Lincoln Park of the shares that have been or may be issued pursuant to the Purchase Agreement. The Commencement occurred on May 19, 2020. On or after the date of the Commencement, we had the right, which we exercised, to direct Lincoln Park to purchase \$500,000 in shares of our common stock. After the Commencement Purchase, from time to time, at our sole discretion, we had the right to direct and may continue to direct Lincoln Park to purchase shares of our common stock in amounts up to 200,000 shares on any single business day as a Regular Purchase. The amount of a Regular Purchase may be increased to up to 300,000 shares depending on the market price of our common stock at the time we initiate the sale, subject to a maximum commitment by Lincoln Park of \$1.0 million per single Regular Purchase. In addition, at our discretion, Lincoln Park committed to purchase other "accelerated amounts" and/or "additional accelerated amounts" under certain circumstances. The purchase price per share of the shares that were sold to Lincoln Park in the Commencement Purchase and that have been sold and may be sold in any Regular Purchase was and will be the lower of (i) the lowest sale price of our common stock on the business day on which we initiate the purchase and (ii) the arithmetic average of the three lowest closing sale prices of our common stock during the 10 consecutive business day period immediately preceding the business day on which we initiate the purchase. The purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the business days used to compute such price. Lincoln Park may not assign or transfer its rights and obligations under the Purchase Agreement.

Under applicable rules of The Nasdaq Stock Market, in no event may we issue or sell to Lincoln Park under the Purchase Agreement more than 19.99% of the shares of our common stock outstanding immediately prior to the execution of the Purchase Agreement (which is 4,941,089 shares based on 24,705,453 shares outstanding immediately prior to the execution of the Purchase Agreement), unless (i) we obtain stockholder approval to issue shares of common stock in excess of the Exchange Cap or (ii) the average price per share of all applicable sales of our common stock to Lincoln Park under the Purchase Agreement equals or exceeds \$1.0117 (which represents the closing sale price of our common stock on April 21, 2020, plus an incremental amount), such that issuances and sales of our common stock to Lincoln Park under the Purchase Agreement would not be subject to the Exchange Cap under applicable Nasdaq rules. In any event, the Purchase Agreement specifically provides that we may not issue or sell any shares of our common stock under the Purchase Agreement if such issuance or sale would breach any applicable Nasdaq rules.

The Purchase Agreement also prohibits us from directing Lincoln Park to purchase any shares of common stock if those shares, when aggregated with all other shares of our common stock then beneficially owned by Lincoln Park and its affiliates, would result in Lincoln Park exceeding the Beneficial Ownership Cap.

On April 22, 2020, the day we entered into the Purchase Agreement, we issued the Commitment Shares to Lincoln Park in consideration for its commitment to purchase shares of our common stock under the Purchase Agreement.

Purchase of Shares Under the Purchase Agreement

From time to time, at our sole discretion, we may direct Lincoln Park to purchase shares of our common stock in amounts up to 200,000 shares on any single business day as a Regular Purchase; provided that such share limit increases to 250,000 shares if the closing sale price of our common stock is not below \$1.50 per share on the business day on which we initiate the purchase, and to 300,000 shares if the closing sale price of our common stock is not below \$3.00 per share on the business day on which we initiate the purchase. We refer to such share amount limitation in this prospectus as the "Regular Purchase Share Limit." The Regular Purchase Share Limit is subject to proportionate adjustment in the event of a reorganization, recapitalization, non-cash dividend, stock split or other similar transaction; provided, that if, after giving effect to such full proportionate adjustment, the adjusted Regular Purchase Share Limit would preclude us from requiring Lincoln Park to purchase common stock at an aggregate purchase price equal to or greater than \$100,000 in any single Regular Purchase, then the Regular Purchase Share Limit will not be fully adjusted, but rather the Regular Purchase Share Limit for such Regular Purchase shall be adjusted as specified in the Purchase Agreement, such that, after giving effect to such adjustment, the Regular Purchase Share Limit will be equal to (or as close as can be

derived from such adjustment without exceeding) \$100,000. In any case, Lincoln Park's maximum commitment in any single Regular Purchase may not exceed \$1.0 million.

The purchase price per share for the shares that may be sold to Lincoln Park in any Regular Purchase will be the lower of:

- the lowest sale price of our common stock on the business day on which we initiate the purchase; or
- the arithmetic average of the three lowest closing sale prices for our common stock during the 10-consecutive-business-day period immediately preceding the business day on which we initiate the purchase.

In addition to Regular Purchases described above, on any business day on which we have properly submitted a notice directing Lincoln Park to purchase the then applicable Regular Purchase Share Limit and properly delivered all the shares purchased in all prior purchases under the Purchase Agreement, we may direct Lincoln Park to purchase an additional amount of shares of our common stock, which we refer to as an "Accelerated Purchase," not to exceed the lesser of:

- 30% of the aggregate shares of our common stock traded during the Accelerated Purchase Measurement Period (as defined below); and
- three times the number of shares we directed Lincoln Park to purchase in the corresponding Regular Purchase notice.

In this prospectus, the Accelerated Purchase Measurement Period refers to the period that begins at the official open of trading on the business day immediately following the date on which we initiated the corresponding Regular Purchase and ends on the earliest to occur of (a) the official close of trading on that day, (b) the time on that day that the trading volume for our common stock exceeds 3.3 times the number of shares we specified in the Accelerated Purchase notice, and (c) such time on that day when any share of our common stock trades at a price less than the minimum price per share threshold we set in the applicable Accelerated Purchase notice.

We may also direct Lincoln Park, by notice delivered before 1:00 p.m. Eastern time on a business day on which an Accelerated Purchase has been completed and all of the shares to be purchased thereunder (and under the corresponding Regular Purchase) have been properly delivered to Lincoln Park in accordance with the Purchase Agreement prior to such time on such business day, to purchase an additional amount of shares of our common stock, which we refer to as an Additional Accelerated Purchase, of up to the lesser of:

- 30% of the aggregate shares of our common stock traded during a certain portion of the normal trading hours on such Accelerated Purchase date as determined in accordance with the Purchase Agreement, which period of time we refer to as the Additional Accelerated Purchase Measurement Period; and
- three times the number of shares we directed Lincoln Park to purchase in Regular Purchase notice corresponding to the Accelerated Purchase that was completed on such Accelerated Purchase date on which an Additional Accelerated Purchase notice was properly received.

We may, in our sole discretion, submit multiple Additional Accelerated Purchase notices to Lincoln Park prior to 1:00 p.m. Eastern time, on a single Accelerated Purchase date, provided that all prior Accelerated Purchases and Additional Accelerated Purchases (including those that have occurred earlier on the same day) have been completed and all of the shares to be purchased thereunder (and under the corresponding Regular Purchase) have been properly delivered to Lincoln Park in accordance with the Purchase Agreement.

The purchase price per share for each Accelerated Purchase and each Additional Accelerated Purchase will be equal to the lower of:

- 95% of the volume weighted average price of our common stock during the applicable Accelerated Purchase Measurement Period on the applicable Accelerated Purchase date; and
- the closing sale price of our common stock on the applicable Accelerated Purchase date.

In the case of any Regular Purchase, Accelerated Purchase and Additional Accelerated Purchase, the purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split or other similar transaction occurring during the business days used to compute the such price.

Other than as described above, there are no trading volume requirements or restrictions under the Purchase Agreement, and we will control the timing and amount of any sales of our common stock to Lincoln Park.

Events of Default

Events of default under the Purchase Agreement include the following:

- a lapse in the effectiveness of the registration statement of which this prospectus forms for any reason (including, without limitation, the issuance of a stop order or similar order) or unavailability of such registration statement or this prospectus for the resale by Lincoln Park of the shares of our common stock offered hereby that, in each case, continues for a period of 10 consecutive business days or for more than an aggregate of 30 business days in any 365-day period;
- the suspension of our common stock from trading on The Nasdaq Capital Market (or such other nationally recognized market or exchange on which our common stock may be listed or traded) for a period of one business day;
- the delisting of our common stock from The Nasdaq Capital Market, unless our common stock is immediately thereafter trading or quoted on the New York Stock Exchange, The Nasdaq Global Market, The Nasdaq Global Select Market, the NYSE American, the NYSE Arca, the OTC Bulletin Board, or OTCQX or OTCQB operated by the OTC Markets Group, Inc. (or nationally recognized successor to any of the foregoing);
- the failure for any reason by our transfer agent to issue to Lincoln Park the shares purchased by Lincoln Park under the Purchase Agreement within two business days after the date on which Lincoln Park is entitled to receive such shares;
- any breach by us of any of our representations, warranties or covenants or other term or condition in the Purchase Agreement or Registration Rights Agreement if such breach would reasonably be expected to have a material adverse effect (as defined in the Purchase Agreement) and, in the case of a breach of a covenant that is reasonably curable, only if such breach is not cured within five business days;
- we become insolvent or we, voluntarily or involuntarily, become the subject of any insolvency or bankruptcy proceeding or any such proceeding is threatened against us, as more fully described in the Purchase Agreement;
- if at any time we are not eligible to transfer shares of our stock electronically through the Depository Trust Company's (DTC) Deposit and Withdrawal at Custodian (DWAC) service, or any similar program hereafter adopted by DTC performing substantially the same function; or
- if at any time the Exchange Cap is reached (to the extent applicable) and our stockholders have not approved the issuance and sale to Lincoln Park of shares in excess of the Exchange Cap.

Lincoln Park does not have the right to terminate the Purchase Agreement upon any of the events of default set forth above. During an event of default, or if any event has occurred which, after notice and/or lapse of time, would reasonably be expected to become an event of default under the Purchase Agreement, all of which are outside of Lincoln Park's control, we may not direct Lincoln Park to purchase any shares of our common stock under the Purchase Agreement.

Term of the Purchase Agreement; Termination Rights

The Purchase Agreement will automatically terminate upon the earlier of (a) the date we sell all \$15.0 million in shares of our common stock to Lincoln Park under the Purchase Agreement, and (b) the first day of the month immediately following the 36-month anniversary of the date of the Commencement. The Purchase Agreement will also automatically terminate upon commencement of a voluntary or involuntary bankruptcy proceeding by or against us, as more fully described in the Purchase Agreement. Now that the Commencement date occurred, we may also, at any time, for any reason or for no reason, terminate the Purchase Agreement upon one business day prior notice to Lincoln Park.

No Short-Selling or Hedging by Lincoln Park

Lincoln Park agreed that neither it nor any of its affiliates will engage, directly or indirectly, in any short-selling or hedging of our common stock during the term of the Purchase Agreement.

Prohibitions on Variable Rate Transactions

There are no restrictions or limitations on our ability to raise capital from other sources at our sole discretion, except that (subject to certain exceptions) we may not enter into any variable rate transaction, as such term is defined in the Purchase Agreement, including any transaction to effect any issuance of shares of our common stock or common stock equivalents with a floating conversion rate or variable purchase price, until the earlier of (a) the 36-month anniversary of the date of the Purchase Agreement and (b) the termination of the Purchase Agreement; provided, however, that, if we terminate the Purchase Agreement, we may not enter into an equity line or similar transaction for 12 months from the date of such termination.

Effect of Performance of the Purchase Agreement on Our Stockholders

All shares registered in this offering which have been or may be issued or sold by us to Lincoln Park under the Purchase Agreement are expected to be freely tradable. Of the 7,053,126 total shares offered for sale by Lincoln Park under this prospectus 271,000 shares were issued by us to Lincoln Park under the Purchase Agreement on or before the date of this prospectus, and 6,782,126 shares may be sold, at our discretion, by us to Lincoln Park under the Purchase Agreement on or after the date of this prospectus and through May 19, 2023. The sale by Lincoln Park of a significant amount of the shares registered in this offering at any given time could cause the market price of our common stock to decline and to be highly volatile. Sales of our common stock to Lincoln Park, if any, will depend upon market conditions and other factors to be determined by us. We may ultimately decide to sell to Lincoln Park all, some or none of the shares of our common stock that may be available for us to sell pursuant to the Purchase Agreement. If and when we do sell shares to Lincoln Park, after Lincoln Park has acquired the shares, Lincoln Park may resell all, some or none of those shares at any time or from time to time in its discretion. Therefore, sales to Lincoln Park by us under the Purchase Agreement may result in substantial dilution to the interests of other holders of our common stock. In addition, if we sell a substantial number of shares to Lincoln Park under the Purchase Agreement, or if investors expect that we will do so, the actual sales of shares or the mere existence of our arrangement with Lincoln Park may make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect such sales. However, we have the right to control the timing and amount of any additional sales of our shares to Lincoln Park and the Purchase Agreement may be terminated by us at any time at our discretion without any additional cost to us.

Depending on the price per share at which we sell our common stock to Lincoln Park pursuant to the Purchase Agreement, we may need to sell more shares to Lincoln Park than are offered under this prospectus to receive aggregate gross proceeds equal to the approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement, which could cause additional substantial dilution to our stockholders. If we choose to sell more shares to Lincoln Park than are offered under this prospectus, we must first register for resale under the Securities Act such additional shares of our common stock. The number of shares ultimately offered for resale by Lincoln Park will depend upon the number of shares we elect to sell to Lincoln Park under the Purchase Agreement.

The Purchase Agreement prohibits us from issuing or selling to Lincoln Park (a) shares of our common stock in excess of the Exchange Cap (which is 4,941,089 shares, or 19.99% of the 24,705,453 shares of our common stock outstanding immediately prior to the execution of the Purchase Agreement), unless (i) we obtain stockholder approval to issue shares in excess of the Exchange Cap or (ii) the average price per share of all applicable sales of our common stock to Lincoln Park under the Purchase Agreement equals or exceeds \$1.0117, such that issuances and sales of our common stock to Lincoln Park under the Purchase Agreement would not be subject to the Exchange Cap under applicable Nasdaq rules, and (b) any shares of our common stock if those shares, when aggregated with all other shares of our common stock then beneficially owned by Lincoln Park and its affiliates, would exceed the Beneficial Ownership Cap.

Through the date of this prospectus, we have received approximately \$7.4 million in aggregate gross proceeds from our sale of shares to Lincoln Park under the Purchase Agreement. The average price per share of all such sales was in excess of \$1.0117. The following table sets forth the amount of gross proceeds we may receive from Lincoln Park from our sale of shares of our common stock to Lincoln Park at varying assumed average purchase prices per share on or after the date of this prospectus under the Purchase Agreement that are offered for sale by Lincoln Park under this prospectus:

Assumed Average Purchase Price Per Share	Number of Shares to be Issued if Full Purchase (1)	Percentage of Outstanding Shares After Giving Effect to Sales to Lincoln Park (2)	Proceeds from the Future Sale of Shares to Lincoln Park Under the Purchase Agreement (3)
\$1.00	6,782,126	14.2%	\$6,782,126
\$1.40 (4)	5,442,586	11.7%	\$7,619,620
\$2.00	3,809,810	8.5%	\$7,619,620
\$3.00	2,539,873	5.8%	\$7,619,620
\$4.00	1,904,905	4.4%	\$7,619,620

- (1) The number in this column takes into account that as of the date of this prospectus the remaining balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement is approximately \$7.6 million, but does not take into account the Beneficial Ownership Cap.

- (2) The numerator is the number of shares set forth in the adjacent column which we would have sold under the Purchase Agreement at the corresponding assumed average purchase price set forth in the adjacent column. The denominator is the sum of (a) 41,064,127 shares outstanding as of the date of this prospectus and (b) the number of shares set forth in the adjacent column which we would have sold under the Purchase Agreement at the corresponding assumed average purchase price set forth in the adjacent column.
- (3) Reflects the aggregate gross proceeds we would receive from the sale of the shares indicated in this table to Lincoln Park under the Purchase Agreement on or after the date of this prospectus, based on the corresponding assumed average purchase price per share indicated in this table.
- (4) The closing price of our common stock on December 18, 2020.

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by Lincoln Park. See “Plan of Distribution” elsewhere in this prospectus for more information. We will not receive any proceeds from the sale of shares by Lincoln Park in this offering.

We may receive up to \$15.0 million in aggregate gross proceeds from sales of shares of our common stock we make to Lincoln Park pursuant to the Purchase Agreement. Through December 18, 2020, we received approximately \$7.4 million in aggregate gross proceeds from sales of shares of our common stock we made to Lincoln Park pursuant to the Purchase Agreement, leaving an approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement. We may choose to sell fewer than \$15.0 million in shares of our common stock, or, due to the Exchange Cap and/or the Beneficial Ownership Cap, we may not be able to sell all \$15.0 million in shares of our common stock under the Purchase Agreement, in which case we would raise less than \$15.0 million in aggregate gross proceeds under the Purchase Agreement. We did not and will not receive any proceeds from the issuance of the Commitment Shares to Lincoln Park.

We will have broad discretion in the use of the net proceeds from any sale of shares of our common stock to Lincoln Park under the Purchase Agreement. We intend to use net proceeds from such sales for working capital and general corporate purposes, which include, but are not limited to, advancing our investigational product portfolio and general and administrative expenses. We have not determined the amount of net proceeds to be used specifically for such purposes. Pending the use of any net proceeds, we expect to invest the net proceeds in interest-bearing, marketable securities.

We will bear all of the costs, fees and expenses incurred in effecting the registration of the shares covered by this prospectus, including, without limitation, the registration and filing fees, printing fees, Nasdaq listing fees and fees and expenses of our counsel and our accountants.

SELLING STOCKHOLDER

This prospectus relates to the possible resale by the selling stockholder, Lincoln Park, of shares of our common stock that have been or may be issued to Lincoln Park pursuant to the Purchase Agreement. We are filing the registration statement of which this prospectus forms a part pursuant to the provisions of the Registration Rights Agreement, which we entered into with Lincoln Park on April 22, 2020 concurrently with our execution of the Purchase Agreement, in which we agreed to provide certain registration rights with respect to sales by Lincoln Park of the shares of our common stock that have been or may be issued to Lincoln Park under the Purchase Agreement.

Lincoln Park, as the selling stockholder, may, from time to time, offer and sell pursuant to this prospectus any or all of the shares that we have issued or may issue and sell to Lincoln Park under the Purchase Agreement. The selling stockholder may sell some, all or none of those shares. We do not know how long the selling stockholder will hold the shares before selling them, and we currently have no agreements, arrangements or understandings with the selling stockholder regarding its sale of any of the shares.

The following table presents information regarding the selling stockholder and the shares that it may offer and sell from time to time under this prospectus. The table is prepared based on information supplied to us by the selling stockholder and reflects its holdings as of December 18, 2020. Neither Lincoln Park nor any of its affiliates has held a position or office, or had any other material relationship, with us or any of our predecessors or affiliates. Beneficial ownership is determined in accordance with Section 13(d) of the Exchange Act and Rule 13d-3 thereunder.

- (1) Josh Scheinfeld and Jonathan Cope, the Managing Members of Lincoln Park Capital, LLC, the manager of Lincoln Park Capital Fund, LLC, are deemed to be beneficial owners of all of the shares of common stock owned by Lincoln Park Capital Fund, LLC. Messrs. Cope and Scheinfeld have shared voting and investment power over the shares being offered under this prospectus. Lincoln Park Capital, LLC is not a licensed broker dealer or an affiliate of a licensed broker dealer.
- (2) Includes 255,500 shares of our common stock issuable to Lincoln Park upon exercise of outstanding and exercisable warrants to purchase our common stock issued on February 15, 2018, which, as of December 18, 2020, have an exercise price of \$0.96 per share and expire on February 15, 2023, which we refer to as the February 2018 Warrants. We have excluded from the number of shares beneficially owned by Lincoln Park prior to the offering all of the shares of common stock that Lincoln Park may be required to purchase on or after the date of this prospectus pursuant to the Purchase Agreement, because the issuance of such shares is solely at our discretion and is subject to certain conditions, the satisfaction of all of which are outside of Lincoln Park's control, including the registration statement of which this prospectus is a part becoming and remaining effective. Furthermore, under the terms of the Purchase Agreement, issuances and sales of shares of our common stock to Lincoln Park are subject to certain limitations on the amounts we may sell to Lincoln Park at any time, including the Exchange Cap and the Beneficial Ownership Cap. See the description under the heading "Our Agreements with Lincoln Park" for more information about the Purchase Agreement.
- (3) Calculated by dividing (a) the shares in the adjacent column titled "Shares Beneficially Owned Before this Offering," by (b) the sum of (i) the 41,064,127 shares of our common stock outstanding as of December 18, 2020 and (ii) the 255,500 shares of our common stock issuable to Lincoln Park upon exercise of the February 2018 Warrants. Although we may at our discretion elect to sell to Lincoln Park up to an aggregate amount of an additional approximately \$7.6 million of our common stock under the Purchase Agreement, such shares are not included in determining the percentage of shares beneficially owned before this offering.
- (4) Assumes issuance of the maximum 6,782,126 shares that are offered for sale by Lincoln Park under this prospectus that are not outstanding as of the date of this prospectus. The Purchase Agreement provides that we may sell up to \$15.0 million in shares of our common stock to Lincoln Park. Through the date of this prospectus we have sold approximately \$7.4 million in shares of our common stock to Lincoln Park under the Purchase Agreement. Depending on the price per share at which we sell our common stock to Lincoln Park on or after the date of this prospectus pursuant to the Purchase Agreement, we may need to sell to Lincoln Park under the Purchase Agreement more shares of our common stock than are offered under this prospectus to receive aggregate gross proceeds equal to the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement. If we choose to do so, we must first register for resale under the Securities Act such additional shares. The number of shares ultimately offered for resale by Lincoln Park will depend upon the number of shares we elect to sell to Lincoln Park under the Purchase Agreement.
- (5) Assumes the sale by Lincoln Park of all 7,053,126 shares of our common stock offered for sale by Lincoln Park under this prospectus, although Lincoln Park is under no obligation to sell any shares of common stock at this time. Calculated by dividing (a) the 255,500 shares of our common stock issuable to Lincoln Park upon exercise of the February 2018 Warrants, by (b) the sum of (i) the 41,064,127 shares of common stock outstanding as of December 18, 2020, which includes 6,967,874 shares issued and/or sold to Lincoln Park under the Purchase Agreement through such date, (ii) the 6,782,126 shares which we may sell to Lincoln Park on or after the date of this prospectus under the Purchase Agreement that Lincoln Park may offer and sell under this prospectus and (iii) the 255,500 shares of our common stock issuable to Lincoln Park upon exercise of the February 2018 Warrants.

DILUTION

Our sale of shares of our common stock to Lincoln Park under the Purchase Agreement will have a dilutive impact on our stockholders. In addition, the lower our stock price is at the time we elect to sell shares to Lincoln Park under the Purchase Agreement, the more shares we will have to issue to Lincoln Park to achieve the same gross proceeds amount, in which case our existing stockholders would experience greater dilution.

Our net tangible book value as of September 30, 2020 was approximately \$(1,385,888), or \$(0.0412) per share of common stock. Net tangible book value per share is determined by dividing our total tangible assets, excluding goodwill and intangible assets, less total liabilities, by the number of shares of our common stock outstanding as of September 30, 2020.

Through the date of this prospectus, we have sold approximately \$7.4 million of our common stock to Lincoln Park under the Purchase Agreement, leaving an approximately \$7.6 million balance of the \$15.0 million total commitment of Lincoln Park under the Purchase Agreement. Assuming a purchase price of \$1.40 per share (which was the closing price of our common stock on December 18, 2020), we would need to sell 5,442,586 shares of common stock to Lincoln Park on or after the date of this prospectus under the Purchase Agreement to exhaust such approximately \$7.6 million balance. After giving effect to the sale and issuance of such 5,442,586 shares of common stock to Lincoln Park under the Purchase Agreement at an assumed average sale price of \$1.40 per share of common stock, our as adjusted net tangible book value as of September 30, 2020 would have been approximately \$6,202,817, or \$0.1589 per share. This represents an immediate increase in net tangible book value of \$0.2001 per share to existing stockholders.

Purchasers of our common stock in this offering will experience an immediate dilution of the net tangible book value per share of our common stock. Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers of common stock in this offering, assuming a purchase price of \$1.40 per share of common stock (which was the closing price of our common stock on December 18, 2020), and our as adjusted net tangible book value per share after giving effect to this offering.

Assumed offering price per share of common stock		\$	1.40
Net tangible book value per share as of September 30, 2020	\$		(0.0412)
Increase in net tangible book value per share attributable to this offering	\$		0.2001
As adjusted net tangible book value per share after giving effect to this offering		\$	0.1589
Dilution per share to new investors		\$	1.2411

The number of shares of our common stock to be outstanding as shown above is based on 33,602,516 shares outstanding as of September 30, 2020, and excludes:

- 1,908,643 shares of common stock issuable upon exercise of warrants outstanding as of September 30, 2020, having a weighted average exercise price of \$1.41 per share;
- 2,783,591 shares of common stock issuable upon exercise of stock options outstanding as of September 30, 2020, having a weighted average exercise price of \$1.16 per share;
- 507,516 shares of common stock reserved for future issuance under our Amended and Restated 2014 Stock Incentive Plan as of September 30, 2020;
- 4,661,611 shares of common stock issued after September 30, 2020 pursuant to our "at the market" offering program; and
- 2,800,000 shares of common stock we sold to Lincoln Park under the Purchase Agreement after September 30, 2020 and through the date of this prospectus.

To the extent that outstanding options or warrants have been or may be exercised, the exercise price of the February 2018 Warrants is adjusted downward in accordance with the price-based anti-dilution provisions of such warrants, new equity awards were or issued, shares of our common stock are sold under our employee stock purchase plan, or we otherwise issued or issue additional shares of common stock, including to Lincoln Park under the Purchase Agreement and in our "at the market" offering program through H.C. Wainwright & Co., LLC, investors purchasing our common stock in this offering may experience further dilution.

PLAN OF DISTRIBUTION

The common stock offered by this prospectus is being offered by the selling stockholder, Lincoln Park. The common stock may be sold or distributed from time to time by the selling stockholder directly to one or more purchasers or through brokers, dealers, or underwriters who may act solely as agents at market prices prevailing at the time of sale, at prices related to the prevailing market prices, at negotiated prices, or at fixed prices, which may be changed. The sale of the common stock offered by this prospectus could be effected in one or more of the following methods:

- ordinary brokers' transactions;
- transactions involving cross or block trades;
- through brokers, dealers, or underwriters who may act solely as agents;
- "at the market" into an existing market for the common stock;
- in other ways not involving market makers or established business markets, including direct sales to purchasers or sales effected through agents;
- in privately negotiated transactions; or
- any combination of the foregoing.

In order to comply with the securities laws of certain states, if applicable, the shares may be sold only through registered or licensed brokers or dealers. In addition, in certain states, the shares may not be sold unless they have been registered or qualified for sale in the state or an exemption from the state's registration or qualification requirement is available and complied with.

Lincoln Park is an "underwriter" within the meaning of Section 2(a)(11) of the Securities Act.

Lincoln Park has informed us that it intends to use an unaffiliated broker-dealer to effectuate all sales, if any, of the common stock that it may purchase from us pursuant to the Purchase Agreement. Such sales will be made at prices and at terms then prevailing or at prices related to the then current market price. Each such unaffiliated broker-dealer will be an underwriter within the meaning of Section 2(a)(11) of the Securities Act. Lincoln Park has informed us that each such broker-dealer will receive commissions from Lincoln Park that will not exceed customary brokerage commissions.

Brokers, dealers, underwriters or agents participating in the distribution of the shares as agents may receive compensation in the form of commissions, discounts, or concessions from the selling stockholder and/or purchasers of the common stock for whom the broker-dealers may act as agent. The compensation paid to a particular broker-dealer may be less than or in excess of customary commissions. Neither we nor Lincoln Park can presently estimate the amount of compensation that any agent will receive.

We know of no existing arrangements between Lincoln Park or any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares offered by this prospectus. At the time a particular offer of shares is made, a prospectus supplement, if required, will be distributed that will set forth the names of any agents, underwriters or dealers and any compensation from the selling stockholder, and any other required information.

We will pay the expenses incident to the registration, offering, and sale of the shares to Lincoln Park. We have agreed to indemnify Lincoln Park and certain other persons against certain liabilities in connection with the offering of shares of common stock offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. Lincoln Park has agreed to indemnify us against liabilities under the Securities Act that may arise from certain written information furnished to us by Lincoln Park specifically for use in this prospectus or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities.

Lincoln Park has represented to us that at no time prior to the Purchase Agreement has Lincoln Park or its agents, representatives or affiliates engaged in or effected, in any manner whatsoever, directly or indirectly, any short sale (as such term is defined in Rule 200 of Regulation SHO of the Exchange Act) of our common stock or any hedging transaction, which establishes a net short position with respect to our common stock. Lincoln Park agreed that during the term of the Purchase Agreement, it, its agents, representatives or affiliates will not enter into or effect, directly or indirectly, any of the foregoing transactions.

We have advised Lincoln Park that it is required to comply with Regulation M promulgated under the Exchange Act. With certain exceptions, Regulation M precludes the selling stockholder, any affiliated purchasers, and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete.

Regulation M also prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security. All of the foregoing may affect the marketability of the securities offered by this prospectus.

This offering will terminate on the earlier of (i) termination of the Purchase Agreement or (ii) the date that all shares offered by this prospectus have been sold by Lincoln Park.

Item 14. Indemnification of Directors and Officers

Delaware Law

Section 102 of the Delaware General Corporation Law, or DGCL, permits a corporation to eliminate the personal liability of directors of a corporation to the corporation or its stockholders for monetary damages for a breach of fiduciary duty as a director, except where the director breached his duty of loyalty, failed to act in good faith, engaged in intentional misconduct or knowingly violated a law, authorized the payment of a dividend or approved a stock repurchase in violation of Delaware corporate law or obtained an improper personal benefit.

Section 145 of the DGCL provides that a corporation has the power to indemnify a director, officer, employee, or agent of the corporation, or a person serving at the request of the corporation for another corporation, partnership, joint venture, trust or other enterprise in related capacities against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with an action, suit or proceeding to which he was or is a party or is threatened to be made a party to any threatened, ending or completed action, suit or proceeding by reason of such position, if such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, in any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful, except that, in the case of actions brought by or in the right of the corporation, no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or other adjudicating court determines that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Restated Certificate of Incorporation

Our Restated Certificate of Incorporation, as amended, referred to herein as our restated certificate of incorporation, provides that no director of our corporation shall be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duty as a director, notwithstanding any provision of law imposing such liability, except to the extent that the DGCL prohibits the elimination or limitation of liability of directors for breaches of fiduciary duty.

In addition, our restated certificate of incorporation provides that we will indemnify each person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of us), by reason of the fact that he or she is or was, or has agreed to become, our director or officer, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (all such persons being referred to as an Indemnitee), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding and any appeal therefrom if such Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, our best interests, and, with respect to any criminal action or proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful.

Our restated certificate of incorporation also provides that we will indemnify any Indemnitee who was or is a party to an action or suit by or in the right of us to procure a judgment in our favor by reason of the fact that the Indemnitee is or was, or has agreed to become, our director or officer, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee or, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity,

against all expenses (including attorneys' fees) and, to the extent permitted by law, amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding, and any appeal therefrom, if the Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, our best interests, except that no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to us, unless a court determines that, despite such adjudication but in view of all of the circumstances, he or she is entitled to indemnification of such expenses. Notwithstanding the foregoing, to the extent that any Indemnitee has been successful, on the merits or otherwise, he or she will be indemnified by us against all expenses (including attorneys' fees) actually and reasonably incurred by him or her or on his or her behalf in connection therewith. If we do not assume the defense, expenses must be advanced to an Indemnitee under certain circumstances.

Indemnification Agreements

We have entered into indemnification agreements with our directors and executive officers. In general, these agreements provide that we will indemnify the director or executive officer to the fullest extent permitted by law for claims arising in his or her capacity as a director or officer of our company or in connection with their service at our request for another corporation or entity. The indemnification agreements also provide for procedures that will apply in the event that a director or executive officer makes a claim for indemnification and establish certain presumptions that are favorable to the director or executive officer.

We maintain a general liability insurance policy that covers certain liabilities of directors and officers of our corporation arising out of claims based on acts or omissions in their capacities as directors or officers.

Insofar as the forgoing provisions permit indemnification of our directors and officers, or persons controlling us, for liability arising under the Securities Act of 1933 we have been informed that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act of 1933 and is therefore unenforceable.

Item 15. Recent Sales of Unregistered Securities

The following is a summary of all securities that we have sold within the past three years without registration under the Securities Act:

- In November 2019, we issued an aggregate of approximately 3,000,000 shares of our common stock to the former stockholders of Microchips Biotech, Inc. ("Microchips") in connection with the closing of the merger pursuant to which we acquired Microchips and it became our wholly owned subsidiary.
- In March 2020, we issued 10,149 shares of our common stock upon the exercise of an option to purchase shares of our common stock. The exercise price per share, which was paid in cash, was \$0.01.
- In April 2020, we issued 285,714 shares of our common stock to Lincoln Park Capital Fund, LLC in consideration for its commitment to purchase shares under the Purchase Agreement, dated April 22, 2020, by and between us and Lincoln Park Capital Fund, LLC.
- Between May 19, 2020 and December 18, 2020, we sold 6,682,160 shares of our common stock to Lincoln Park Capital Fund, LLC under the Purchase Agreement, dated April 22, 2020, by and between us and Lincoln Park Capital Fund, LLC.

The shares of common stock described above were issued in reliance on an exemption from registration under Section 4(a)(2) of the Securities Act in that such transactions did not involve a public offering and/or Regulation D promulgated thereunder.

Item 16. Exhibits and Financial Statement Schedules

(a) Exhibits

The exhibits to this registration statement are listed in the Exhibit Index to this registration statement, which Exhibit Index is hereby incorporated by reference.

(b) Financial statement schedules

All schedules have been omitted because either they are not required, are not applicable or the information is otherwise set forth in the financial statements and related notes thereto.

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

- (i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
- (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser: each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Re: Registration Statement on Form S-1

Ladies and Gentlemen:

We have acted as counsel to Daré Bioscience, Inc., a Delaware corporation (the "Company"), in connection with the filing with the U.S. Securities and Exchange Commission (the "SEC") on the date hereof of a registration statement on Form S-1 (the "Registration Statement") under the Securities Act of 1933, as amended (the "Securities Act"). The Registration Statement registers the resale of up to 7,053,126 shares (the "Shares") of the Company's common stock, par value \$0.0001 per share ("Common Stock"), by the selling stockholder (the "Selling Stockholder") identified in the Registration Statement. The Shares consist of 271,000 shares of Common Stock the Company issued to the Selling Stockholder, and up to 6,782,126 shares of Common Stock the Company may issue and sell to the Selling Stockholder from time to time, in each case, pursuant to a purchase agreement dated April 22, 2020 between the Selling Stockholder and the Company (the "Purchase Agreement").

This letter is being furnished in connection with the requirements of Item 601(b)(5) of Regulation S-K under the Securities Act.

In connection with the opinion contained herein, we have examined the Registration Statement, the Company's charter documents, the proceedings taken by the Company with respect to the Purchase Agreement, and such other documents, records, certificates, memoranda and other instruments as we deem necessary as a basis for such opinion. With respect to the foregoing documents, we have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to originals of all documents submitted to us as certified or reproduced copies, and that if the Shares are issued as uncertificated shares, upon issuance, the Company complied or will comply, as applicable, with all applicable notice requirements regarding uncertificated shares provided in the Delaware General Corporation Law. We have also assumed that (a) shares of Common Stock currently reserved for issuance under the Purchase Agreement will remain available for the issuance of the Shares, and (b) neither the Company's charter documents nor any of the proceedings taken by the Company relating to the Purchase Agreement, will be rescinded, amended or otherwise modified prior to the issuance of the Shares. We have obtained a certificate from an officer of the Company as to certain factual matters and, insofar as the opinion contained herein is based on matters of fact, we have relied on such certificate without independent investigation.

Based upon such examination and subject to the further provisions hereof, we are of the opinion that, as of the date hereof, the Shares have been duly authorized by all necessary corporate action of the Company and, when the Shares shall have been duly registered on the books of the transfer agent and registrar therefor in the name or on behalf of the Selling Stockholder, and have been issued by the Company against payment therefor (not less than par value) in the circumstances contemplated by the Purchase Agreement, will be validly issued, fully paid and non-assessable.

The foregoing opinion is limited to matters governed by the federal laws of the United States of America and the Delaware General Corporation Law, including the applicable provisions of the Delaware constitution.
